WORK EXPERIENCE

UPS | Package Handler

Oct 2020 - Present

- Handled packages with attention to detail in a fast-paced, pressurized environment
- Collaborated with team members to meet daily loading targets and ensure timely departures for delivery
- Utilized scanning devices and software to accurately track package movement, effectively minimizing the occurrence of lost or incorrectly delivered packages

EDUCATION

Brooklyn College (2018-2021)

Meta Front End Development (2023)

- Through the comprehensive course, I gained a strong foundation in the key aspects of web development, including HTML, CSS, and JavaScript. Additionally, I extended my knowledge by learning React, a popular JavaScript library for building dynamic user interfaces.
- Helped me gain a solid knowledge about the fundamentals of UX design, including research, prototyping, and testing, to create user-centered digital experiences
